ProjectTitle:ToSupplyLeftoverFoodtoPoor Category:

Salesforce

SkillsRequired:SalesforceDeveloper

### 1. ProjectOverview

ProjectObjectives and Goals

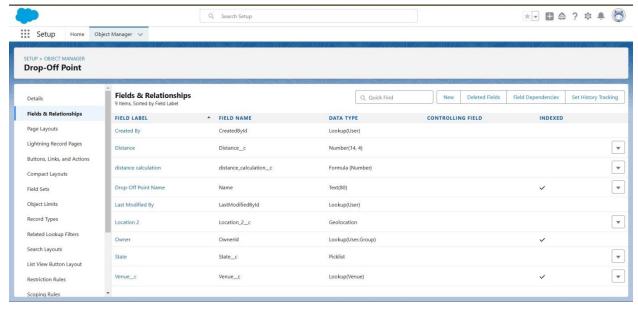

Objective: This project aims to develop a Salesforce-based application designed to manageandstreamlinethedistribution of leftoverfood to underserved communities. The primary goal is to enhance the efficiency of food drop-offs, coordinate tasks, managevolunteers, and generate in sightful reports.

2. DetailedDescriptionofImplementedFeatures

CustomObjects

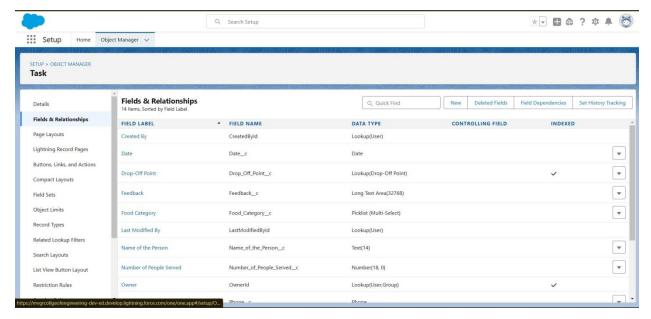

- 1. Drop-OffPoint:
- Purpose:TheDrop-OffPointobjectcapturesessentialdetailsaboutlocations wherefoodisdroppedoff.Thishelpsintrackingandmanagingfooddistribution points effectively.
- Fields:
- ${\tt o\ Drop-OffPointName:} A text field representing the name of the drop-off\ point.$
- ${\tt o Location Details:} A text field for additional details about the drop-off point location.$
- Distance: Anumberfieldthatrecordsthedistancefromthedrop-offpoint to the delivery area.

 Venue: Alookuprelationshipfieldlinkingtothe Venue object to provide a connection between drop-off points and venues.

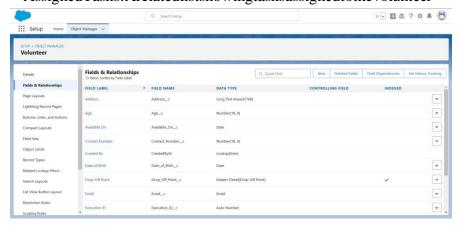

#### 2. Task:

- Purpose:TheTaskobjectisusedtomanageandtrackvarioustasksrelatedto food distribution, including assigning tasks to volunteers and recording task details.
- Fields:
- o TaskName: Atextfieldrepresenting the name of the task.
- o Date: Adatefield indicating when the task is scheduled or completed.
- Rating: Anumeric field used to rate the task performance.
- Drop-OffPoint:AlookuprelationshipfieldlinkingtotheDrop-OffPoint object to associate tasks with specific drop-off points.
- SponsoredBy:AlookuprelationshipfieldlinkingtotheDrop-OffPoint object to indicate the sponsor of the task.

#### 3. Volunteer:

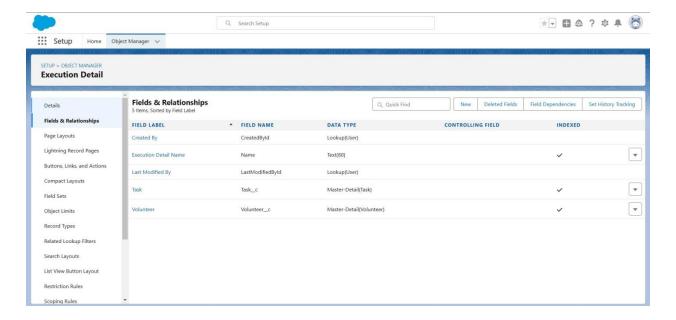

- Purpose: The Volunteer object keep strack of individuals who are involved in the food distribution process, including their contact information and assigned tasks.
- Fields:
- ${\tt O\ VolunteerName:} A text field for the name of the volunteer.$
- ${\tt o \ Contact Email:} A nemail field for the volunteer 's contact email.$
- ${\tt \circ Contact Phone:} A phone field for the volunteer's contact number.$
- ${\tt \circ} Assigned Tasks: A related list showing tasks assigned to the volunteer$

.

#### 4. ExecutionDetail:

- Purpose:TheExecutionDetailobjectcapturesdetailedinformationaboutfood distribution activities, including which volunteers and task are associated with each distribution.
- Fields:
- ExecutionDetailName: Atextfieldfornamingtheexecutiondetail record.
- Volunteer: Amaster-detailrelationshipfieldlinkingtothe Volunteerobject to associate execution details with a specific volunteer.
- Task:Amaster-detailrelationshipfieldlinkingtotheTaskobjectto associate execution details with a specific task.
- o Details: Atextfield for additional information about the execution.

ObjectRelationships

• Master-DetailRelationships:

■ ExecutionDetailtoVolunteer:Ensuresthateachexecutiondetailrecordislinked to a

volunteer, making volunteer information essential for each distribution

record.

■ ExecutionDetailtoTask:Ensuresthateachexecutiondetailrecordislinkedtoa task, making

task information essential for each distribution record.

• LookupRelationships:

■ TasktoDrop-OffPoint:Connectstaskstodrop-offpoints,providingcontexton where each

task is executed.

■ TasktoVolunteer:Connectstaskstovolunteers,enablingtrackingofwhich volunteer is

responsible for each task.

■ Drop-OffPointtoVenue:Linksdrop-offpointstovenues,facilitatingadetailed

understanding of where food is being dropped off.

SharingRules

Toensurethatrecordsaresharedappropriatelybasedondistancecriteria, the following sharing

rulesweresetup:

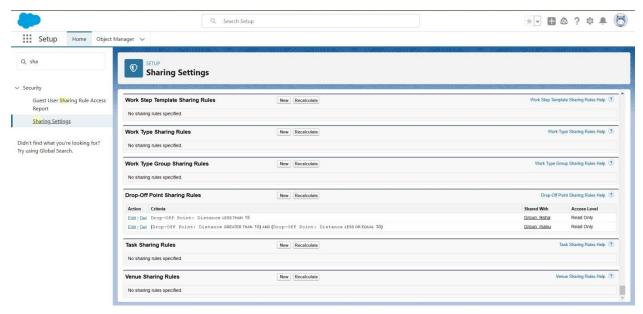

• Rule1:

■ Label:Rule1

■ Criteria:Recordswherethedistanceislessthan15km

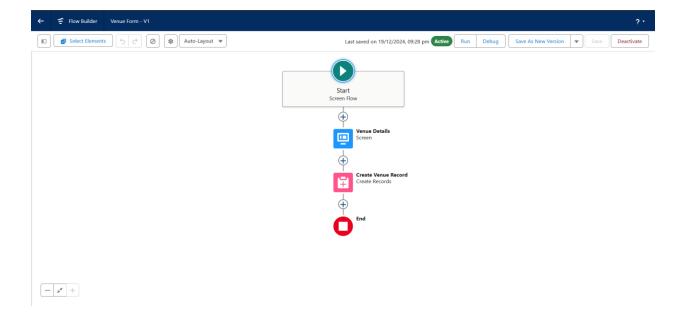

■ Access:SharedwithPublicGroup-Iksha

- Rule2:
- Label:Rule2
- Criteria:Recordswherethedistanceisbetween15kmand30km
- Access:SharedwithPublicGroup-NSS

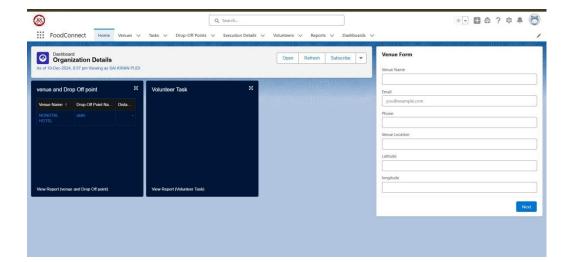

# FlowandDashboard

- Flow:VenueFlow
- Purpose:Tomanageandcapturedetailedinformationrelatedtofooddrop-off points.
- **■** Components:
- o TextComponent:Forenteringthevenuename.
- ${\tt \circ Email Component:} For entering the contact email of the venue. \\$
- ${\tt \circ Phone Component:} For entering the contact phone number of the venue. \\$
- TextComponent:Forenteringthevenuelocation.
- NumberComponents:Forenteringlatitudeandlongitudevaluesofthevenue.

- Dashboard:
- Name:OrganizationDetails
- Components:
- o LightningTable:Displaysdetailedinformationaboutvenuesanddrop-off points, facilitating a comprehensive view of the data.

3. ConfigurationandSetupInstructions

CreatingCustomObjects

- 1. Drop-OffPoint:
- NavigatetoObjectManager>Create>CustomObject.
- Enterdetails such as the label name, record name, and other settings for Drop Off Point.
- 2. Task:
- NavigatetoObjectManager>Create>CustomObject.
- $\blacksquare \ Enterdetails such as the label name, record name, and other settings for Task.$
- 3. Volunteer:
- NavigatetoObjectManager>Create>CustomObject.
- Enterdetails such as the label name, recordname, and other settings for Volunteer.
- 4. ExecutionDetail:
- NavigatetoObjectManager>Create>CustomObject.
- $\blacksquare \ Enterdetails such as the label name, record name, and other settings for \ Execution$

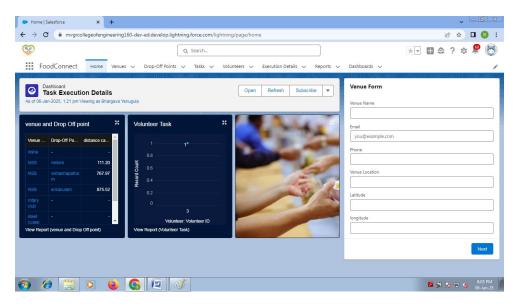

Detail.

SharingRulesSetup

- GotoSharingSettings.
- DefinenewsharingrulesforDrop-OffPointbasedondistancecriteria, ensuring appropriate access for different public groups.

## LightningAppBuilder

- 1. CreateHomePage:
- GotoLightningAppBuilder>New.
- SelectHomePageandnameit"HOMEPage".
- AddFlowandDashboardcomponentstothepage.
- 2. SaveandActivate:
- ClickonSaveandActivation.
- $\blacksquare \ Setthe page as the default for the Food Connect app.$

## Report Types and Dashboards

- 1. CustomReportTypes:
- $\blacksquare \ Creater eport types for Venue with Drop-Off with Volunteer and Volunteers with \ Execution$

Details and Tasks.

- 2. Reports:
- Generateandconfigurereportsusingthecustomreporttypestotrackand

analyserelevantdata.

- 3. Dashboards:
- Configured ashboard stovisualised at a from reports and other components, providing insights into the overall distribution process.
- 4. Deliverables
- CodeFiles:IncludeApextriggersandanyothercodeimplemented.
- OutputScreenshots:Providescreenshotsofcustomobjects,flows,dashboards,and reports to illustrate the setup.
- $\bullet \ Project Documentation: Detailed descriptions of implemented features, configurations, \\$

and setup instructions.

• ProjectDemonstrationVideo:Avideoshowcasingthefunctionalityoftheapplication, including key features and processes.
